GB Failure to comply with these instructions annuls Somfy's responsibilities and guarantee. Somfy cannot be held responsible for any changes in norms and standards introduced after the publication of this guide.

ES El incumplimiento de estas instrucciones anula responsabilidad y la garantía de SOMFY. SOMFY no se hace responsable de los cambios en la normativa introducidos después de la publicación de esta guía.

PT O não respeito às instruções neste manual extingue toda a responsabilidade e garantia por parte da Somfy. A Somfy não poderá ser responsabilizada por eventuais alterações às normas posteriores à edição deste manual.

GR Η παράλειψη τήρησης των οδηγιών αφαίρει την υπευθυνότητα και ταυτόχρονα ακυρώνει την εγγύηση της Somfy. Η Somfy δεν θα θεωρηθεί υπεύθυνη για οποιαδήποτε αλλαγή των νόμων και κανονισμών θα προωπηροισασθούν μετά από την έκδοση αυτού του εντύπου.

GB BEFORE INSTALLATION Universal receiver RTS must be installed and programmed by qualified installers for whom this instruction is intended.

PRODUCT DESCRIPTION Universal receiver RTS is a radio receiver for awnings with an automatic control according to the daylight intensity and protection against wind damage.

A. MOUNTING OF THE UNIVERSAL RECEIVER RTS Respect the electrical standards in force as well as the following points: Disconnect the mains before carrying out any work.

- [1]. The Universal receiver RTS is compatible with all standard SOMFY wired motors. Cabling arrangements are shown in the diagram. Up to 3 sensors can be memorized to one receiver to optimise weather detection and up to 12 transmitters can be recorded.

B. PROGRAMMING a. Installing or Removing a transmitter [1]. Enter programming mode Press the programming button of the Universal Receiver -> 2sec until the motor feedback and LED lights.

b. Installing or Removing a Sensor [1]. Enter programming mode Press the programming button of the Universal Receiver -> 2sec until the motor feedback and LED lights.

c. Removing all the controls and the sensors from the memory of the receiver Press the programming button of the Universal Receiver -> 7 sec until blinking of the LED and 4 motor feedbacks.

It is also possible to enter programming mode with a known control by pressing 2sec. on its programming button.

PT ANTES DE INSTALAR O Receptor Universal deve ser instalado e programado por um instalador devidamente habilitado, a quem se destinam estas instruções.

DESCRIÇÃO DO PRODUTO O Receptor Universal RTS é um receptor rádio para toldos com controlo automático conforme a intensidade da luz do dia e proteção contra danos provocados pelo vento.

A. MONTAGEM DO RECEPTOR UNIVERSAL RTS Respeitar as normas eléctricas em vigor assim como os pontos que se seguem: Desligar a instalação eléctrica antes de efectuar o trabalho.

- [1]. O receptor Universal RTS é compatível com todos os motores SOMFY normalizados. A distribuição dos fios é apresentada no diagrama. Podem ser memorizados até 3 sensores num único receptor a fim de optimizar a detecção climática e podem ser registados até 12 transmissores.

B. PROGRAMAÇÃO a. Instalar ou Retirar um transmissor [1]. Introduzir o modo de programação Pressionar o botão de programação do Receptor Universal -> 2seg. até o motor reagir e o LED acender.

b. Instalar ou Retirar um Sensor [1]. Introduzir o modo de programação Pressionar o botão de programação do Receptor Universal -> 2seg. até o motor reagir e o LED acender.

c. Retirar todos os controlos e os sensores da memória do receptor Pressionar o botão de programação do Receptor Universal -> 7seg. até o LED fixar intermitente e os 2 motores reagirem.

Também é possível introduzir o modo de programação com um controlo previamente programado, pressionando 2seg. o respectivo botão de programação.

ES ¡ANTES DE INSTALAR! El receptor universal RTS debe ser instalado y programado por técnicos cualificados, a quienes van dirigidas estas instrucciones.

DESCRIPCIÓN DEL PRODUCTO El receptor universal RTS es un receptor de radio para toldos con control automático, regulado por la intensidad de luz natural y con protección contra el viento.

A. MONTAJE DEL RECEPTOR UNIVERSAL RTS Respete las normas eléctricas en vigor así como los aspectos siguientes: Desconecte la red eléctrica antes de realizar cualquier trabajo.

- [1]. El Receptor universal RTS es compatible con todos los motores SOMFY cableados. La disposición del cableado se muestra en el diagrama. Pueden memorizarse hasta 3 sensores en un receptor para optimizar la detección del tiempo meteorológico y pueden registrarse hasta 12 transmisores.

B. PROGRAMACIÓN a. Instalación o Borrado de un transmisor [1]. Entre en el modo de programación Pulse el botón de programación del Receptor Universal -> 2 s hasta que el motor reaccione y el indicador luminoso se ilumine.

b. Instalación o Borrado de un Sensor [1]. Entre en el modo de programación Pulse el botón de programación del Receptor Universal -> 2 s hasta que el motor reaccione y el indicador luminoso se ilumine.

c. Borrado de todos los controles y sensores de la memoria del receptor Pulse el botón de programación del Receptor Universal -> 7 s hasta que el indicador luminoso parpadee y el motor reaccione dos veces.

GR ΠΡΙΝ ΤΗΝ ΕΓΚΑΤΑΣΤΑΣΗ Ο Universal receiver RTS πρέπει να εγκατασταθεί και να προγραμματιστεί από ειδικούς, στους οποίους απευθύνονται αυτές οι οδηγίες.

ΠΕΡΙΓΡΑΦΗ ΠΡΟΪΟΝΤΟΣ Ο Universal receiver RTS είναι ένας αισθητήρας δέκτης για τέντες, με αυτόματο έλεγχο ανάλογα με την ένταση του φωτός της ημέρας και προστασία από τη ζημια που μπορεί να προκαλέσει ο άνεμος.

A. ΤΟΠΟΘΕΤΗΣΗ ΤΟΥ UNIVERSAL RECEIVER RTS Σεβαστείτε το γενικό νόμο για κάθε περίπτωση: Εγκαταστήστε τον Universal receiver RTS με την είσοδο των καλωδίων να δείχνει προς τα κάτω, να είναι αποφυγεί η διαρροή νερού.

- [1]. Ο Universal receiver RTS είναι συμβατός με όλα τα μοντέλα ενσωματωτων μωτέρ SOMFY. Η διάθεση των καλωδίων αναρτησεται στο σχεδιασμο. Εως και 3 αισθητήρες μπορούν να αποθηκευθούν στη μνήμη ενός δέκτη, για να βελτιστοποιήθει η ανίχνευση καιρικών συνθηκών, και έως και 12 πομπές μπορούν να αποθηκευθούν.

B. ΠΡΟΓΡΑΜΜΑΤΙΣΜΟΣ a. Εγκατάσταση ή Αφαίρεση πομπού [1]. Επλάξετε τη λειτουργία προγραμματισμού Pressate o botão de programação do Receptor Universal para mais tempo até 2 segundos/pressionar o botão de programação do receptor para mais tempo.

b. Εγκατάσταση ή Αφαίρεση αισθητήρα [1]. Επλάξετε τη λειτουργία προγραμματισμού Pressate o botão de programação do receptor para mais tempo até 2 segundos/pressionar o botão de programação do receptor para mais tempo.

c. Αφαίρεση όλων των χειριστήρων και των αισθητήρων από τη μνήμη του δέκτη Pressate o botão de programação do receptor para mais tempo até 7 segundos/pressionar o botão de programação do receptor para mais tempo.

Μπορείτε επίσης να επλάξετε τη λειτουργία προγραμματισμού με ένα γνωστό χειριστήριο πιέζοντας για 2 δευτερόλεπτα το πλήκτρο προγραμματισμού.
